

Title: *The Impact of Sustainable Practices on Hotel Guest Satisfaction*

Authors: Emmanuel Ponce, Ramon Sebastian

Year: 2024

Abstract:

This study investigates how the adoption of sustainable practices in hospitality management influences guest satisfaction. It focuses on eco-friendly initiatives, waste reduction, and energy conservation efforts implemented by hotels and their effect on customer loyalty and business reputation.

Introduction:

Sustainability is no longer just a trend but a necessity in the hospitality industry. This research explores how hotels integrate sustainable practices into their operations and the corresponding feedback from guests.

Methodology:

Data was gathered through customer satisfaction surveys, in-depth interviews with hotel management, and a comparative analysis of sustainability-focused hotels versus traditional establishments.
